For Immediate Release

Matthias Bruski, a 2014 graduate from the SABIS® Network school in Frankfurt, Germany, ISF Internationale Schule Frankfurt-Rhein-Main (ISF), has just received recognition for outstanding performance on the 2014 AP® German Language and Culture exam. **Not only did Matthias receive a perfect score of 5, he was also one of only 41 students in the world to earn every single possible point on the examination.**

The College Board's Advanced Placement Program® (AP®) provides students with the opportunity to take rigorous college-level courses while still in high school and to earn college credit, advanced college placement, or both for successful performance on AP® exams. ISF offers a number of AP® courses including the AP® German Language and Culture exam, which engages students in an exploration of German language and culture in both contemporary and historical contexts.

"We are very proud of Matthias's achievements," said Mr. Angus Slessor, ISF School Director. *"German is a core subject at ISF and our students' performance on these exams is a testimony to the strength of the German program we offer here."*

Matthias joined ISF in the 4th grade and graduated last spring. While a student at ISF, Matthias excelled academically and was actively involved in the SABIS Student Life Organization® at the school. He took six AP® exams in the spring of his senior year and earned the highest score possible – 5 – on five of the six exams. Reflecting the strength of his performance on his AP's, he was named as an "AP® Scholar with Distinction." Matthias graduated from ISF in 2014 and is currently pursuing a degree in mechanical engineering at the University of Colorado Boulder in the U.S.

ISF has been a member of the global SABIS® Network since 1995. The school boasts a 20-year track record of successfully preparing students to excel on external exams and helping them gain admission to the best colleges and universities around the world.
