Discovering New Horizons

More than 1,400 students from SABIS® and non-SABIS® schools across the U.A.E. gathered at the SABIS® U.A.E. University Fair 2026 held at SABIS® International School – Yas Island.

Bringing together over 120 universities and educational organizations from around the world, this year's fair provided students with direct access to representatives from the U.S., Canada, the U.K., Europe, Asia, Australia, and the MENA region who shared valuable information about academic programs, admissions requirements, scholarships, student life, and career opportunities.

Students explored a wide range of study destinations and connected with institutions that could help shape their next chapter beyond high school.

Guiding the Journey Ahead

At SABIS®, education extends beyond academic achievement. Students are encouraged to set ambitious goals, explore opportunities, and prepare for success both at university and beyond.

The SABIS® U.A.E. University Fair reflects this commitment by connecting students with leading universities, educational organizations, and higher education professionals from around the world. Through meaningful conversations and practical guidance, students gain the confidence to make informed decisions about their futures.

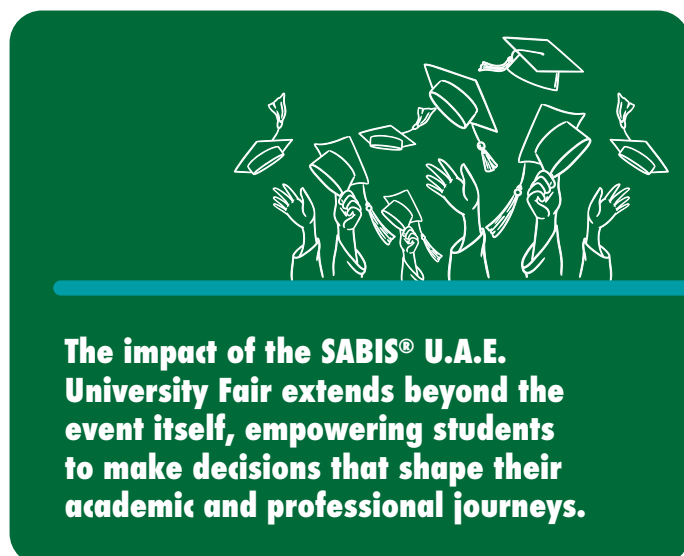

“ Face-to-face interactions and relationships built through this fair enable our students to make decisions that will affect their lives over the next four years and beyond. ”

Rami Malak, SABIS® Regional Director for Academic Operations – U.A.E. & Gulf

Paths & Possibilities in Action

A highlight of this year's fair was a series of expert-led sessions designed to help students better understand the university journey and the opportunities available to them after graduation.

Covering topics such as admissions, scholarships, student life, employability, career planning, and emerging workplace trends, these sessions provided practical guidance to support students as they explore their future options.

The impact of the SABIS® U.A.E. University Fair extends beyond the event itself, empowering students to make decisions that shape their academic and professional journeys.

Introducing the SABIS® School to Life Program

This year's SABIS® U.A.E. University Fair also provided students and parents with an opportunity to learn about the newly introduced SABIS® School to Life Program.

Designed for students in Grades 9-11, the program helps bridge the gap between school and the professional world by combining career exploration, professional certifications, and soft skills development.

Through the program, students:

- Explore career pathways
- Build workplace skills
- Earn recognized certifications
- Strengthen university applications
- Gain real-world experience

Students also have access to career-focused learning opportunities and certification pathways from globally recognized organizations such as Adobe, Microsoft, Cisco, Meta, Autodesk, Intuit, and the Project Management Institute (PMI).

University Representatives Speak

Meaningful conversations between students and university representatives were at the heart of this year's fair. Reflecting on their experience, representatives commend SABIS® students for their confidence, professionalism, and academic strength.

Here are some of their thoughts on this year's fair and the students they met along the way.

"SABIS® students thrive outside academics as well. They are engaged with their community and participate in sports, clubs, and extracurricular activities."

**University of Toronto
Representative**

"SABIS® students are so academically prepared for our studies. They transition very smoothly, and in terms of their academics, they're stellar. They are super involved and very engaged in campus life and extracurricular activities."

**Northwestern University –
Qatar Representative**

"The SABIS® curriculum is one of the strongest curricula, and SABIS® students really perform well in our university."

**University of Birmingham –
Dubai Representative**

"SABIS® students are phenomenal candidates for our university."

**University of Arizona
Representative**

"We have over 30 SABIS® students from across the SABIS® Network, all of whom excel in their programs. They demonstrate outstanding performance not only academically and socially, but also in extracurricular activities."

**SRH University Germany
Representative**

"SABIS® students display a strong academic foundation, high discipline, and resilient work. They are able to study and apply to universities all over the world."

**American University of Beirut
Representative**

The fair provided students and parents with a unique opportunity to connect with leading universities, ask important questions, and make informed decisions about higher education.

Students Speak

"The Fair has been an exciting opportunity to learn more about universities around the world. The main thing I learned from SABIS® that I will carry with me to university life is what it means to be a leader. Through the Student Life Organization (SLO) and many opportunities, SABIS® gave me the chance to lead and take initiative. Thank you, SABIS®!"

ISC-Khalifa City Student

"The University Fair is amazing! I got to meet with all the university representatives and gained a lot of information. The main thing I learned from SABIS® that I will carry with me to university life is to coordinate properly between my academics and social life."

ISC-Sharjah Student

"SABIS® has taught me time management and self-discipline, making the college application process much more manageable and organized."

ISC-Dubai Student

Parents Speak

"The SABIS® U.A.E. University Fair is really good for parents to attend and gain a comprehensive view of the journey that awaits their child. Moreover, SABIS® schools give students a global perspective. The school has a diverse community, and that was partly the reason I chose a SABIS® school."

ISC-Khalifa City Parent

"I am so happy to attend this University Fair; it is very fruitful. It offers many opportunities to learn about universities and, for us parents, to ask specific questions about the things we want to know. Thank you, SABIS®."

ISC-Khalifa City Parent

"During the Fair, I found that many universities recognize and value the fact that my son is a SABIS® student."
